## Work Experience |

### Campus Expert [GitHub](#)

June 18' - Present

Responsible for empowering local student hackers. Evangelising local students on tech and community leadership, core values of sustainable communities and helping them become responsible tech, team and community leaders.

### Regional Organiser [AngelHack](#)

January 18' - Present

Responsible for organising local AngelHack hackathon itself: fundraising, marketing, venue. Doing local community management, I keep leveraging community approach to accelerator-driven hackathons and their core values.

### Sales Engineer [Estimote Inc.](#)

January 18' - May 18'

Being a part of Proximity Team, I was responsible for supporting our business clients in integrating our APIs and SDKs into their products and scaling infrastructure. I was also implementing improvements based on their feedback.

### iOS Software Engineer [Estimote Inc.](#)

May 17' - January 18'

Co-responsible for Estimote and Indoor iOS apps. Being involved in Developer Experience team I also led the development of community-oriented app templates using our APIs and SDKs.

### Core Developer Advocate [AGHacks 2015](#)

November 14' - January 18'

I was responsible for hacker outreach and hacker experience (530 people). I was also co-responsible for fundraising and social media management. During hackathon I led 30 volunteers group in providing support for hackers.
